**MSDS DATE:** April 2, 1996      **REV. DATE:** January 29, 1998  
This product is a mixture of materials, all of which appear on the EPA inventory of industrial chemicals.

---

### SECTION II - HAZARDOUS INGREDIENTS

---

Under normal handling conditions, Boltaron film and sheet are classified as articles and do not present any recognized health hazards.

However, heating of this material, such as softening or melting (welding), may generate small quantities of fumes containing unidentified compounds of hydrogen degradation, organic acids and esters, and hydrogen chloride.

Operations such as machining, routing or sawing may generate dust containing low levels of the following ingredients:

INGREDIENT	313?	%	ACGIH TLV mg/m <sup>3</sup>	OSHA PEL mg/m <sup>3</sup>
Lead Salts	Yes	5.0 to 5.5	0.15	0.05
